DAHLIAS

I WISH to thank my friends and customers for their kind patronage and I take this opportunity to again thank all that have written me telling of their wonderful success with my dahlias and seed.

I invite correspondence and will give my customers any advice that I can.

The following list of dahlias are not over priced and are within the reach of all. I do not list a large collection but have selected the following for their color, perfection of form, stem and blooming qualities. It is my wish and desire to introduce at least one new variety each year and my friends can be assured of something good as my past introductions speak for themselves.

TERMS—All retail orders are delivered prepaid.

CASH with order or in advance of shipment.

I guarantee all roots and plants to be healthy, and true to name. Having no control over them after delivery I do not guarantee them to live and thrive. They should be returned upon delivery if not satisfactory.

DELPHINIUM

THE BURNS NEW HYBRID DELPHINIUM

The Burns New Hybrid Delphinium

These gorgeous blue delphiniums are the results of many years crossing and selections. Leading horticulturists of California proclaim this strain to be the finest to date.

The flowers are nearly all double with a beautiful combination of light blue shades and lavender. They are unequaled for floral combinations and garden display.

The popularity of the perennial delphinium is advancing rapidly.

First time offered for sale—\$1.00 per pkt.

Sow in Boxes and Transplant

Under favorable conditions plants will flower the first season and reach their maturity the second and third season.

THE ORIOLE—(Burns)

The wonder peony dahlia for 1922. From hundreds of testimonials The Oriole was the first and last to bloom. A prize winner wherever shown. The Oriole has a wonderful color combination of the autumn shades, many of the flowers shading to white at the tips.

DAHLIA SEED

Much pleasure can be derived from growing dahlia seed. Dahlias grow very easily from seed. Plant early, then transplant after danger of frost. They will make large plants the first year. New varieties are produced in this manner.

Great care has been exercised in the selection of these seeds. Their record speaks for themselves.

Seed artificially fertilized and gathered from the best varieties of Decorative Hybrid Cactus and Paeony Dahlias. \$1.00 a package.
